COMMERCIAL DRIVER'S LICENSE (CDL) TRAINING

085-9LA CDL Refresher Driving Course NEW

If you have previous driving experience, we offer a one-on-one refresher training class with a truck driver instructor. This training would be excellent for preparing for the CDL SKILLS TEST. Prerequisites are a current and valid driver's license and a CDL instructional permit. **Cost for the course is \$85 per hour driving time. For more information and to make an appointment, call 605-882-5284, Ext. 320 or 260.**

086-9LA CDL (Commercial Drivers License) Written Test Preparation

This class is designed to provide all the information necessary to PASS YOUR WRITTEN CDL TEST. The class will cover general knowledge, air brakes, combination vehicles, hazardous materials, tankers, doubles and triples. The skills test training covers all pre-trip inspections, basic control skill procedures and road test procedures. Advanced registration required!!

Friday, October 24, 4:00-9:00 pm & Saturday, October 25, 8:00-5:00 pm, LATI TEC Bldg., Rm 514

Instructors: Carl Tesch

Registration Fee: \$95

087-9LA Commercial Driver License (3rd Party)

We have several people that are qualified to give third party testing in the Northeast area of South Dakota. This testing is offered on a year round basis. The cost for this test is **\$84.80** for the 1st time and if a retake is needed for any portion of the test the cost is **\$31.80**. Please call **605-882-5284, Ext. 320** for information.

084-9LA Forklift Training

NEW

This operator program offers necessary information and guidance to fulfill OSHA requirements for the classroom portion of the training. OSHA states that employees must be trained prior to operating power industrial trucks. This session is the classroom component of the required operator training. A skills test can be arranged upon completion of the classroom portion of the training program. **This class will be delivered by Safety Benefits Inc. Call 605-882-5284, Ext. 320 or 260 to arrange a training session.**

000-8LA Boiler Maintenance & Operation

This class will cover both high pressure and low-pressure systems. Topics to be discussed are: define boilers and types, steam boilers and fittings, basic boiler room systems, steam and water accessories, fuel burning equipment, draft and combustion, combustion controls, instruments, boiler water treatment, steam boiler operations and safety. (Certificates issued for proof to insurance companies)
